

ZOROS

DIGITAL JUKEBOX FOR BARS

A new revenue stream. Zero cost. Zero hassle.

Zoros lets your guests pay to choose the music — set up in under 15 minutes, with no hardware or installation required.

LIMITED PILOT — COPENHAGEN

We're onboarding a **small number of venues in Copenhagen** as pilot partners. Partners keep **75% of revenue** during pilot.

Zoros estimates the average participating establishment will drive **€2,000 of incremental revenue monthly**. That's **€1,500 directly to your bottom line**.

Even more upside: music choice means more time spent in your bar. **80% of guests say they'd stay longer at a bar with music they enjoy** — that means more drink and meal purchases per visit.

You always have the final say. Skip or override any request at any time — if it doesn't fit the vibe, it doesn't play.

HOW IT WORKS

1 We connect to Spotify

We link Zoros to your bar's Spotify — no hardware, no installation. Done in 15 minutes.

2 We discreetly place QR codes

We work with you to place QR codes around your bar — wherever fits your space best.

3 Guests scan and pay to play

Customers scan, pick a song, and pay from their phone. No app download needed.

4 You get paid

75% of revenue lands directly in your pocket after every transaction.

WHAT YOU GET

€0

Upfront cost to you

75%

Revenue during pilot

<15

Minutes to get started

*Long term contract terms determined post pilot period.
